More Synergy, More Options

Our deep partnerships with top IT manufacturers—many of which look to us for their own technology infrastructure needs—keep us immersed across the broad spectrum of the IT ecosystem:

Customized Financial Solutions

Bridge the gap between the assets needed now and the budget available

Provide for vendor independent leasing and financing solutions

Leverage tax exempt financing expertise

Provide terms and conditions that are complementary to government guidelines

100% project finance, including installation, maintenance, support, consulting, and design

Value-add offerings for automated procurement and asset management

Grants Sponsorship Program

Secure alternative funding sources for your classroom-based and distance learning oriented technology needs:

+ Identify grant opportunities

+ Qualify and develop a competitive project

+ Sponsor grant writers

+ Post-award guidance and support
