

**CLOUD:** Consulting, Managed Services, Adoption & Lifecycle Management, Hosted Services, Hybrid-Private-Multi Cloud, Dev & FinOps

**DATACENTER:** DCAAS, Hyper-Converged Infrastructure, Storage, Compute, Data Protection, DevOps

**SECURITY:** Network, Endpoint, Cloud, Application, AI, and Data Security, Security Operations + Analytics, Advisory Services, Managed Security Services, Workshops

**NETWORKING:** Hybrid Cloud Access, Software Defined Networking, Resilient IOT, Wireless Connectivity, Managed Network Services, Technology Expense Management

**COLLABORATION:** Cloud, Contact Center, Video Conferencing, Collaboration as a Service, Lifecycle and Adoption Services, Digital Workspace, Recording and Compliance

**AI IGNITE:** AI Journey Support, Workshops and Assessments, AI Advanced Services, Innovation Labs, AI-Optimized Infrastructure

## THE VALUE OF PARTNERSHIP

**TIME TO MARKET:** Capability to rapidly deploy AI or split-stack architecture ready infrastructure, interconnection, and data centers from a local, regional, and global perspective

**FULL STACK SUPPORT:** Consulting and Managed Services end-to-end which enables our customers to focus on their workloads, applications, data and users, not the infrastructure and facilities it consumes

**TRUSTED:** 8000+ customers, two decades designing and supporting technology solutions, financial viability, executive alignment and commitment

**COMPLEMENTARY:** Our services don't compete they complement each other. Our customers covet an end-to-end solution to expedite their AI and digital transformation journey's.

**TARGET SOLUTION AREAS:** AI & HPC, Hybrid Architectures, Interconnection Networking, Data Center Outsourcing & Rationalization

**LARGEST GLOBAL DATA CENTER PLATFORM:** 300+ data centers across 50+ metros in 25+ countries, 87% owned

**AI READY FACILITIES:** Existing inventory, term-outs, land banks, tax abatement markets, high density facilities delivering air and liquid cooled capabilities today up to 70KW a rack

**DEPLOY, CONNECT, SECURE CRITICAL INFRASTRUCTURE AT ANY SCALE:** 20' year DNA in data center modularity, split stack architectures, and mix densities from a single rack, multi-MW, or built to suit

**ON RAMP TO DIGITAL ECOSYSTEMS AND CONNECTED DATA COMMUNITIES:** Direct On-Ramp Access to the hyper-scalers, direct access to hundreds of carriers, Layer 2 connectivity on demand to 700+ data centers, clouds, and services via Service Fabric

**TRUSTED PLATFORM FOR PERFORMANT, RESILIENT AND SUSTAINABLE GLOBAL CAPACITY:** Compliant facilities NIST, PCI, SOC, ISO, 99.9999% Uptime 15+ years, 5+ years Energy Star Partner of the year, US-EMEA colocation centers net neutral, 6 billion in green bonds issued

# We are Proud to Deliver the Meeting Place for Companies, Technologies and Data

A global platform with local expertise
