Customized Payment and
Financing Options

Collaborative and Long-Standing
Partnerships with Leading
Technology Providers

The complex nature of technology, combined with talent shortages, heightened risk and a rapidly evolving global landscape are creating challenges for any company whose tomorrows are built on technology. We help organizations optimize their technology infrastructures to capitalize on these market shifts by providing superior technical acuity, the ability to align IT with company growth objectives and trusted partnership at every step of the journey.

1,750+: Employees

4,300: Global Customers

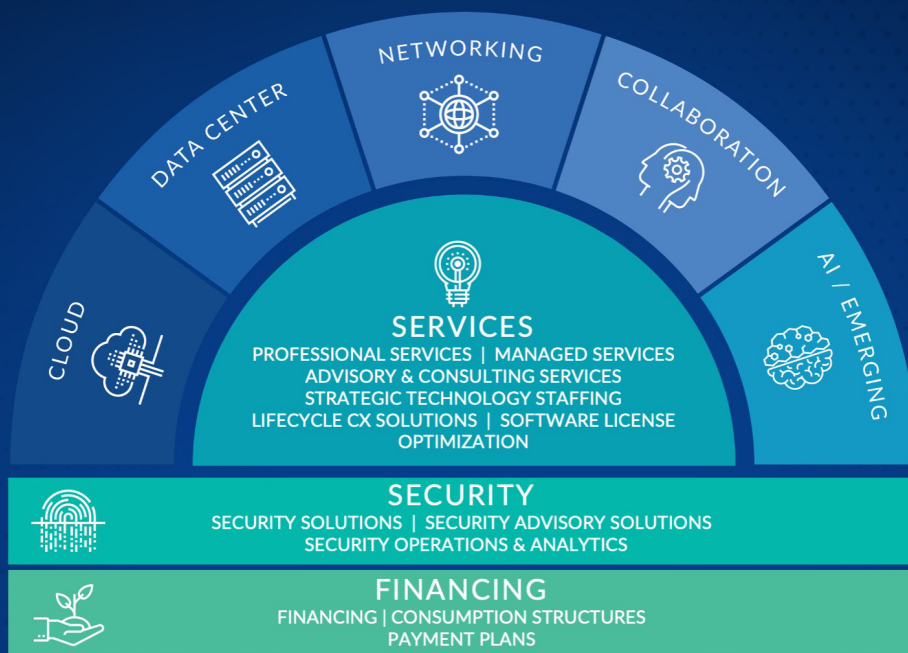

5,000+: Certifications and
accreditations carried by ePlus
staff from the top IT
manufacturers in the world

Who is ePlus?

ePlus is a customer first, services led, results driven and trusted industry leader that understands the implications of a new era of technology intelligence. For more than 30 years, we have stood side by side with more than 4,300 global customers, helping them navigate an increasingly complex and dynamic IT, regulatory and workforce environment. Our people make the difference: the integrated approach we bring, our proven methodologies, our collaborative all-in culture and a way to working that meets organizations where they are now, the next day and always.

Comprehensive Solutions and Services

With a relentless commitment to innovation on behalf of everyone we serve, ePlus helps organizations secure, modernize, optimize and scale their IT infrastructure for truly transformational results. We achieve these outcomes via excellence across our innovative portfolio of solutions and services. It's equal parts strategy, execution and results, always with our customers at the core. Each day. Every day.

The ePlus portfolio of solutions and services spans the following:

CLOUD & DATA CENTER – Leverage cloud in transformative ways by modernizing data center infrastructure, extending those capabilities to cloud, accelerating cloud migrations and optimizing cloud platforms (and spend) to meet dynamic and evolving business needs.

SECURITY – Ensure security and reliability by design from end to end with cutting-edge solutions, tools, intelligence and managed services that help diagnose, predict, map, secure and protect every facet of an environment to compromise nothing.

NETWORKING – Build a resilient, efficient, agile, defensive and intelligent network capable of supporting modern initiatives. Design and deploy next-generation enterprise and service provider networks to ensure that all domains are supported with high-performing, fault-tolerant, secure, intelligent and application-aware solutions.

COLLABORATION – Empower hybrid work and unleash productivity from anywhere, simply and securely. With full integration into existing business tools and processes, modern collaboration solutions accelerate workplace/workspace transformation, enhance employee and customer experiences and ensure secure interactions with predictable cost models.

SERVICES – Maximize return on IT investments, facilitate implementations and enhance technology performance through our broad portfolio of consultative and managed services. Driven by technical expertise, our award-winning team brings a modular approach to designing, developing, protecting, optimizing and managing the technology that fuels our customers' business at every stage of their lifecycle.

FINANCING AND CONSUMPTION MODELS – Boost investment power by aligning technology and payment solutions to provide cost predictability, flexible contract terms and fast, easy access to hardware, software and services.

The future of the modern enterprise will be driven by rapidly-scaling technologies that connect everyone and everything, securely, intelligently and automatically. ePlus designs and delivers these solutions, at the right time, in the most efficient way.
